

Intoxications of dogs and cats with Drugs of Abuse – AN ONLINE LECTURE

AUTHOR: Ena Oster, DVM (Faculty of Veterinary Medicine, Croatia)

Collaborators: Prof. Andrea Prevendar Crnić, PhD, DVM

DESCRIPTION

With the increasing prevalence of drug abuse in humans, pets have greater exposure to drugs of abuse. Intoxications with drugs of abuse is relatively new aspect of clinical work in veterinary medicine and it is in constant rise. This lecture will teach you, through case reports, how to recognise, diagnose and treat these intoxications when presented to your veterinary clinic.

STRUCTURE OF THE WORKSHOP: 2 hours (lecture + questions/discussion)

DATE AND TIME: February 2022 (exact date TBA on Facebook and Twitter)

PRICE: 5€ for ISEAS members

PLATFORM: ZOOM (link and password will be sent to participants' email before the workshop)
